

# focus on the FULLER EFFECT

Press Release Mashpee, MA, March 2022

Seven years of extensive scientific research, 45 million reviewed hexapeptides, skincare visionary Dr. Des Fernandes, Environ Founder and Scientific Director has pushed the boundaries of cosmetic science to unlock the solution to the skin's full rejuvenating potential.

“As we age, it is natural for the skin to lose fat in the dermis as well as hyaluronic acid. What many people need is to improve the cushion of fat in the skin and boost the hyaluronic acid status to make it look like the skin has been “re-inflated”. Environ’s R&D team aimed to develop a topical cosmetic formulation that can be used to improve the appearance of well-cushioned skin.”

- DR. DES FERNANDES, ENVIRON FOUNDER AND SCIENTIFIC DIRECTOR

## Focus Care Youth+® 3DSynergé™ Filler Crème.

An advanced powerhouse booster formulated to target the signs of lines, wrinkles and loss of volume to reveal a visibly smoother, firmer, naturally fuller-looking skin appearance.

### ONE ADVANCED FORMULATION

*inspired by*

### TWO DERMAL FILLER TECHNIQUES

*to target the*

### THREE DIMENSIONS OF YOUTH:

*the past, rejuvenated*

*the present, reborn*

*the future, beautifully resilient*

## Intelligent Hydro-Lipidic approach. Powerhouse ingredients.

### HYALURONIC ACID TECHNOLOGY:

Assists to replenish and promote the benefits of optimal levels of Hyaluronic Acid in the skin for a visibly smooth, plumped appearance.

### SMART PEPTIDE TECHNOLOGY:

Assists to improve the appearance of volume and the structural integrity of skin for a firmer, naturally fuller look.

### POTENT ANTIOXIDANT PROTECTION:

Assists to revive and protect the effects of youthful properties of the skin with an advanced peptide and phyto-antioxidant key ingredients.

## Performance intelligence meets beautiful effective science.

Optimize results of 3DSynergé™ Filler Crème, with a course of Environ’s technologically advanced **Focus On Filler professional treatments**. This revolutionary facial protocol combines the power of **DF Technology** and the **Professional Dual Effect Filler Serum** to help smooth the look of lines and restore a rejuvenated plumped youthfulness to the appearance of skin.

\*Results achieved after 1 month with daily use of Environ vitamin A + 3DSynergé™ Filler Crème supported with two Professional Focus On Filler treatments.

**ENVIRON®**  
a beautiful skin for a lifetime
