

From Physiology to Practice: Integrating Retail, Hormonal Science, and Device Technology

Monday, August 31

9:00 am: **Check In**

9:30 am: **Retail Overview: Linking Products to Skin Function**

A high-level overview of the retail portfolio, connecting key products and ingredients to skin physiology and clinical outcomes.

Hormonal Skin Dynamics: Acne, Pregnancy & Menopause

An in-depth exploration of how hormonal shifts across key life stages influence sebum production, inflammation, pigmentation, and skin aging—providing a framework for targeted, physiology-based treatment strategies..

12:30 pm: **Lunch Break**

1:30 pm: **Synergistic TriaWave Technology**

Synergistic TriaWave is a groundbreaking, state-of-the-art technology designed to enhance efficacy of key topical ingredients through the use of a synergistic combination of three modalities.

- Low Frequency Sound
- Pulsed Iontophoresis
- Third Generation Microcurrent

Synergistic TriaWave Treatment Demonstration

4:30 pm: **Workshop Adjourns**

Come Meet Candace Noonan!

Candace is a Licensed Esthetician and Master Trainer for DermaConcepts, exclusive distributor of Environ Skin Care in the USA, and hosts advanced trainings on this pharmaceutical grade line. She holds certificates for internationally recognized programs including Advanced Skin Analysis, Dermal Needling and Oncology Esthetics, and is a proficient public speaker at medical and skin care conferences throughout the USA. Her belief is to never stop learning, in hopes of sharing the knowledge gained by her continued studies. Born in South Africa, and having personal experience battling Melasma, she feels her passion for skin care is her biggest asset.
