CLARITY+

NEW

Take charge and conquer the look of confidence-crushing breakouts and reveal the appearance of clear, healthy-looking skin with Environ's new Focus Care Clarity+® Range.

Mashpee, MA, October 2018: For over 18 years Dr. Des Fernandes, Environ Founder and Scientific Director, has been researching and developing an innovative skincare solution that would help target the effects of the root causes of breakouts. Dr. Des not only believes that "no one should have uncontrolled breakouts and get permanent scars and pits" but that "by keeping the vitamin A levels high in the skin that we could help to reduce the chances of breakouts appearing."

How does Environ's new Focus Care Clarity+® Range reveal the appearance of clear, healthy-looking skin?

The Clarity+ Range is an innovative 3-phase system offering a complete skincare solution that is tough on the appearance of breakouts but easy on skin. Each phase contains products that have been specifically formulated to help target the effects of the root causes of breakouts by giving your skin exactly what it needs where it needs it most.

1. Clearly it's time to focus on CLEAN by helping to combat the appearance of CONGESTION and excess surface oil.

Sebu-Wash Gel Cleanser:

This foaming face wash assists in washing away dirt and excess surface oil, leaving the skin feeling refreshed and clean.

Sebu-Tone Clarifier:

Containing clarifying exfoliators and sebum-regulating ingredients, this toner helps to remove the build-up of dead surface skin and minimize the appearance of an oily shine.

2. Clearly it's time to focus on CONTROL by helping to target and counteract the visible progression of CONSPICUOUS spots.

Sebu-Lac Lotion:

This non-oily lotion containing a special combination of exfoliators and moisturizers helps to combat the signs of breakouts and assists in improving the look of skin texture.

Sebu-ACE Oil:

Scientifically formulated with botanicals and vitamins, this lightly textured, non-oily oil helps to prevent the appearance of breakouts by providing skin with a daily dose of essential vitamins.

Sebu-Spot Blemish Gel:

A targeted spot treatment that is specifically formulated to help minimize the appearance of visible spots and breakouts.

3. Clearly it's time to focus on CLEAR by reducing the appearance of CONFIDENCE CRUSHING breakouts.

Sebu-Clear Masque:

Containing a combination of exfoliating acids, this cream masque helps to clear the appearance of existing breakouts.

For optimal results, combine the Clarity+ Range with a course of Professional Peels, and in time, step-up your daily dose of topical vitamin A skincare products.

Ask your Skin Care Professional about how you can **#ConquerWithClarity+** so that you can **#FocusOnFlawless** skin that looks clear and healthy.
