

SKIN SERENITY,

overnight science

FOCUS CARE YOUTH+® SERIÉENCE™ NIGHT SERUM

The first of its kind advanced overnight booster developed to target the negative long-term effects of stress to reveal serene, luminous and youthful-looking skin, night after night.

TARGETS THE SIGNS OF STRESS

- Dullness
- Fatigue
- Wrinkles & Lines
- Loss of Elasticity

ENVIRON'S BREAKTHROUGH FORMULATION MALACHITE-NEUROPEPTIDE COMPLEX

Scientific research has shown that the ingredients have the following benefits:

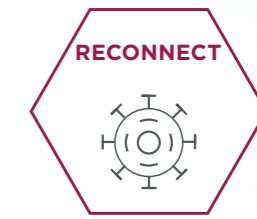

Malachite Extract
Known for centuries as a powerful stone of transformation, Malachite Extract offers potent antioxidant benefits scientifically proven to boost the effects of skin immunity and defense against environmental stressors.

Neurophroline™
A rapid, responsive calming neuropeptide derived from Wild Indigo Seed Extract is scientifically proven to transform the appearance of dullness into youthful-looking luminosity and counteract the negative effects of stress hormones in the skin.

Argireline® Amplified
This all-in-one peptide targets the effects of fatigue and post expression muscle relaxation to visibly smooth and improve the effects of lines and wrinkles for a beautifully relaxed, serene-looking appearance.

Matrixyl® Morphomics™
A hard-working peptide is scientifically proven to smooth the appearance of frown lines, marionette lines, nasolabial folds and crow's feet by assisting to re-establish the benefits of vital skin connections and rebuild the effects of an optimally functionally network.

**Key Ingredient efficacy has been individually scientifically proven through independent studies.*

ENVIRON®
a beautiful skin for a lifetime
