

DERMA CONCEPTS®

invites you to join us and learn about our new state-of-the-art, groundbreaking products, treatments, and technology.

Name of course:	From Product Line to Performance System: The Environ Algorithm
Course descriptor:	How to Engineer Predictable, Long-Term Skin Results In today’s aesthetics industry, results are often pursued through isolated treatments, trending ingredients, and aggressive interventions. But skin does not respond to isolated actions. It responds to patterns, progression, and cumulative signaling. In this advanced educational webcast, Candace Noonan, Director of Education for Environ U.S., and Melanie Vorvick, National Educator, break down the science behind The Environ Algorithm™ — a structured, progressive system designed to create predictable, sustainable visible skin results. You’ll learn: • Why vitamin A progression is a biological necessity — not a marketing concept • How Essential Skincare, Focus Care, and Sun Protection function as a structured progressive system • The metabolic pathway of vitamin A in the skin • Why delivery technologies (Electro-Sonic DF + Cool Peel®) enhance results without trauma • How algorithmic layering improves compliance, retention, and long-term visible outcomes This is not a product training. This is a systems training. When you understand the algorithm, results stop being accidental — and start being engineered.
Dates & Times:	This webinar is offered several times. Select the date and time that works best for you. Thursday, July 16, 2026 • 12:00-1:00 PM EDT • Register HERE Thursday, July 23, 2026 • 3:00-4:00 PM EDT • Register HERE
Venue:	DermaConcepts Virtual Classroom
Fee:	FREE

Presented by Candace Noonan, an industry expert and Master Trainer for DermaConcepts. As a licensed esthetician, she conducts trainings on the efficacy and science of products and ingredients, as well as hands-on demonstrations. Graduating as a facial specialist, she continues to educate herself and stay abreast of this ever-changing, very exciting industry.

Access to the FREE webinars is limited to licensed professionals in the United States.

Upon approval to attend, a confirmation email will be sent with instructions to join the webinar, 24 hours prior to the start time.

System Requirements for All Webinars

PC-based Attendees: Required - Windows® 8, 7, Vista, XP or 2003 Server
