**Environ pushes the boundaries of skin care with the ultimate age defying duo.**

Mashpee, MA, July, 2017: Environ introduces new Youth EssentiA® Vita-Antioxidant Defence Crème Plus and Vita-Peptide Intensive Serum 4 Plus- the ultimate step in Environ's globally acclaimed premium Vitamin A step-up system Range.

Formulated for those Environ users who've already worked their way through the Environ Vitamin A step-up system, and who are accustomed to higher levels of vitamin A, this dynamic duo delivers the highest levels of vitamin A to the skin - through leading-edge vitamin A innovation.

The Defence Crème Plus assists in combating free-radical damage by helping enrich skin with high levels of vitamins and antioxidants. The Intensive Serum 4 Plus leaves skin looking younger, healthier and more resilient as it contains the highest levels of vitamin A and C, as well as a powerful combination of Juvinity™, peptide complexes, antioxidants and moisturizers.

"I believe that the Youth EssentiA Defence Crème Plus and Intensive Serum 4 Plus, are the best solution to future-proofing skin." Dr. Des Fernandes, Environ Scientific Director.

This age defying duo contains the highest possible levels and combinations of vita-peptides and antioxidants that, when used together, visibly reduce the signs of aging and help reveal youthful-looking, radiant skin.

For the last 26 years, Environ has been at the forefront of vitamin A innovation, creating pioneering products that make a real difference. With the launch of the two new Youth EssentiA products, Environ has taken vitamin A innovation - and youthfulness - to a whole new level.
